

FLEMING AVE - BRILL ST BLOCK ASSOCIATION

April 17, 1979

Mr. Richard Martins, Director  
Newark Title VII Nutrition Program  
2 Cedar St.  
Newark, New Jersey

Dear Mr. Martins,

The Fleming Ave - Brill St Block Association wishes to express its appreciation for your assistance to the Ironbound United Neighbors in their effort to obtain a nutrition site at the FDR Housing Project.

As residents in this neighborhood, we believe that there is a serious need for this site. Our senior citizens are hit very hard by inflation. While the costs of food, housing and medical care - our basic needs - are continually rising, the incomes of older people are not. In this situation, the nutrition site is extremely important for our older people. As taxpayers, we consider this type of program in our neighborhood to be a wise expenditure of our tax dollars because it is crucial to the dignified survival of our older neighbors and friends.

The Ironbound United Neighbors have worked very hard to make their site a reality. We hope that their efforts, and yours, will be rewarded, and that steps can be taken to begin the nutrition site at FDR as soon as possible. If we can be of any assistance in this process, please let us know.

Sincerely,

Henry Levandoski  
President
